1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 2-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over O'Connell et al in view of Bauerlein '007. O'Connell discloses the claimed invention, including an ice level sensing unit 92 moving a cam 133 against a switch 125-131 to shut off electricity to a drive motor 42 when the ice storage tray is full. See especially Fig. 6 and column 5, lines 3-18. However, O'Connell does not disclose the first and second pulleys. Bauerlein '007 teaches a belt-type ice maker having first and second pulleys 12 and 13 supporting the belt. It would be obvious to provide O'Connell with first and second pulleys for supporting the belt 46, in view of Bauerlein '007, for the purpose of providing a more stable support for the belt.

3. Applicant's arguments with respect to claim 2 have been considered but are moot in view of the new ground of rejection.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3744

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
